RE: Records Request: Request Number: ORR-2025-1707 - Submitted On: 10/14/2025

Dear Requestor,

A cost estimation has been issued for your request for records. A second search performed by county IS&T based on the refined keywords you provided below yielded 617 potentially responsive records, each of which would have to be reviewed for actual responsiveness to your request and redacted if necessary for production.

- "Executive Order 14248" or "14248"
- "Preserving and Protecting the Integrity of American Elections"
- "Election Assistance Commission" or "EAC"
- "Department of Justice" or "DOJ"
- "voter roll maintenance"
- "proof of citizenship"
- "mail ballot deadline"
- "absentee ballot receipt"
- "federal compliance"

Please see the attached invoice for a summary of charges. County IS&T staff have performed two (2) searches and estimate one (1) hour total including record retrieval. Voter Elections & Registration staff estimate approximately sixteen (16) hours to review, redact and produce actually responsive records.

Prior to processing, Forsyth County requires your approval of the estimated charges - **please reply to this message with your approval**, or you may choose to further narrow the scope of your request.

Request retrieval, redaction, and production will not begin until your approval has been received.

Please note, if approval is not received within 10 business days, your request will be closed.

Thank you,

Forsyth County, GA
